# FRAME CHIROPRACTIC

Dr. Paul Frame, D.C.  
2034 E. Southern Ave, Suite J  
Tempe, Arizona 85282  
Office # (480) 345-2080

## TERMS OF ACCEPTANCE

---

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective.

It is important that each patient understand both the objective and the method that will be used to attain it.

Your nervous system is made up of your brain, spinal cord & nerves. Your nervous system is in charge of directing, controlling, & coordinating every organ & system in your body. If you have a misaligned spinal or extremity bone, the nerves exiting through that bone are not operating at their best. I detect this, then gently and manually perform adjustments to remove nervous system interference. Once adjusted the nerve tracts are no longer compressed & your nervous system can work at its optimum. Ultimately homeostasis & health are restored naturally to every organ, system, tissue, & cell in your body.

**Extremity Adjustment:** An adjustment is the specific application of forces to facilitate the body's correction of vertebral and extremity subluxation. Our chiropractic method of correction is by specific adjustments of the spine and extremities.

**Health:** A state of optimal physical, mental, and social well-being, not merely the absence of disease or infirmity.

**Extremity Subluxation:** A misalignment of one or more of the 24 vertebra in the spinal column and extremity joints which causes alteration of nerve function and interference to the transmission of impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

We do not offer to diagnose or treat any disease or condition other than subluxation. However, if during the course of a chiropractic spinal examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area.

-Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. OUR ONLY PRACTICE OBJECTIVE is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct subluxation.

I, \_\_\_\_\_ have read and fully understand the above statements.  
(print name)

All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction.

I therefore accept chiropractic care on this basis.
